PREFACE

The Creative Art and Sport syllabus for Standard I-III of 2022 derived from the great change in education that conducted by the Ministry of Education and Vocational Training Zanzibar, (MoEVT) through curriculum review in 2019. Development of this syllabus incorporated a number of stakeholders from different institutions. This syllabus describes the topics that can be taught in standard I-III.

In general, the syllabus adheres to the requirements of education as cited from the Zanzibar Education Policy which is described from the ZEDP II of 2017/2022 in relation to the 21st century skills. The Ministry of education ensured that the syllabus reflects the community needs and recommendations, findings of different literatures including the previous curriculum framework (2009), and the documents from other countries that use the competence-based approach to ensure that the pupils acquire the required skills and are examined accordingly.

To ensure that all children have equal access to quality education this syllabus will be used in all Zanzibar schools including government, private and community schools. I wish to convey the Ministry's sincere gratitude to each and every person that contributed to the development of this Creative Art and Sport syllabus for standard I-III pupils; Zanzibar Institute of Education (ZIE) Advisory Board; the technical team, and other curriculum developers including the retired staffs as they worked in hand during the development and improvement of the document.

I hope this syllabus will be used by teachers and other implementers working in different levels including preprimary and primary levels in order to improve the education level in Zanzibar.

Khamis A. Said.
Principal Secretary,
Ministry of Education and Vocational Training,
Zanzibar.

INTRODUCTION

This Creative Arts and Sports syllabus of 2022 for Standard One has been prepared to meet the basic needs at the primary education level in Zanzibar. It is derived from the 2009 Curriculum which was reviewed in 2019. This introduction clarifies the Philosophy of Education in Zanzibar, the goals and objectives of the Primary Education in Zanzibar, the reasons for conducting the Primary Education Curriculum Review, The Importance of Writing a Creative Arts and Sports Subject Syllabus followed by the list of the general outcomes expected to be achieved by the target learners. This introduction also indicates the Scope and Sequence together with the clarification of the Syllabi Table Components. The Syllabus also includes the selection of learning topics, the general learning outcomes for each class as well as the syllabus matrix.

1.1 Zanzibar Philosophy of Education

The Curriculum Framework for Pre-primary and Primary Education is inline with Zanzibar's philosophy of education, values and principles of its education system.

The philosophy of education in Zanzibar is the same as that of the United Republic of Tanzania which aims at the provision of Education for Self-reliance. This philosophy is featured by self independence, confidence, progressiveness, possession of life skills, valuing equality, entrepreneurship, inventiveness, inquisitiveness, creativity, and the ability to assess/ evaluate/ reflect and analyse.

1.2 The Overall Goals of Education in Zanzibar

The following are the overall goals of education in Zanzibar:-

1. To promote and sustain the best cultural values, attitudes and customs of the people of Zanzibar/Tanzania for the purpose of enhancing unity and cultural identity.
2. To promote the acquisition of all forms of knowledge, skills and attitude that will fully enhance the people's individual and societal wellbeing.
3. To enable every citizen to understand and respect the principles of the Zanzibar and Tanzania Constitutions, Human Rights as well as civil rights, obligations and responsibilities.
4. To promote and enhance the proper use, management and conservation of the environment.

5. To instill appreciation and respect of civil service and self-employed work, as well as observing accountability, discipline and quality performance at work.
6. To inculcate the attitude towards adhering to the principles and practices of tolerance, peace, love, justice, human rights and fundamental freedoms, national unity and international cooperation as enshrined in the international basic charters.

1.3 General Objectives of Primary Education

The general objectives of Primary Education in Zanzibar are as follows:

1. To enable all children of school going-age develop and sustain strong foundations of skills in reading, writing, counting, creativity and communication in Kiswahili, English and other foreign languages.
2. To enable learners understand the application of science and technology and recognize its contribution to national and international development.
3. To lay, develop and sustain in learners' strong foundations of thinking skills and inquisitiveness in order to understand their environment and social relationships.
4. To enable the learners, understand how past events influence the present as well as the future.
5. To discover learner's talents from their early age in order to sustain and develop them.
6. To lay strong foundations of skills of observation, thinking and co-operation in solving problems which hinder their personal development and the development of their society.
7. To prepare learners for joining secondary education.
8. To enable the learners, develop mental abilities and interest in continuous search for knowledge.
9. To familiarize learners with productive vocational activities and promote their readiness to fulfil their social responsibilities.
10. To enable learners, recognize and uphold national unity as well as the cooperation between their nation and people of other nations.
11. To enable the learners, develop acceptable moral, cultural and ideological values in order to promote patriotism and understanding of their country's historical, political and social situations.
12. To develop and sustain learners' self – discipline, observance of gender

equality and maintenance of personal and other peoples' health.

13. To enable the learners, develop habits of smartness, cleanliness and proper use of their leisure time.
14. To promote learners' love for their environment and interest in environmental conservation.

1.4 Reasons for the Reviewing of Primary Education Curriculum

In 2019, the Revolutionary Government of Zanzibar reviewed the curriculum of Pre-Primary and Primary education. The aim was to make it relevant to the development of Science and Technology, labour market competition and global economic changes, as stated in various Government documents, including Zanzibar Policy of Education. The policy focuses on enhancing the quality and structure of education so as to have good link starting from Pre Primary, Primary, to Secondary, in order to suit peoples' expectations within the society. Among the proposed changes is to have seven (7) years of primary education instead of six (6) years that was being practiced before.

1.5 The Importance of Learning the Creative Arts and Sports Subject

In the review conducted in 2019, it was found that the subject of Creative Arts and Sports did not exist, but its content was as a topic in Vocational Training and Sports subjects. Due to the needs of the community, it has been seen that it is good that the subject of Creative Arts and Sports can be independent from Standard I - VII. This is because, this subject helps the student to build knowledge, skills and a positive attitude to enable him/her to play and design activities that will enable him/her to be independent. Also, the subject helps the student to strengthen his/her health by implementing entrepreneurial skills, to be able to protect him/herself from communicable and non-communicable diseases. Moreover, this subject helps the student in developing Zanzibar traditions and customs.

1.6 General Learning Outcomes of Learning the Creative Arts and Sports Subject

After studying the Creative Arts and Sports subject in primary schools, the student will demonstrate the skills of: -

1. Appreciate and perform social and productive vocational activities
2. Appreciate aesthetical aspects in the environment and express themselves creatively through a range of artistic activities.
3. Engage in a range of physical and creative activities to exercise their mind and body.

4. Observe issues carefully, think critically and cooperate with other people in solving problem, protect themselves against sexual violence and exploitation

2.0 STRUCTURE OF THE SYLLABUS

This syllabus consists of two main sections: the preliminary pages and the teaching and learning tables/matrix.

2.1 Preliminary Matters

This section consists of the introduction of syllabus, Zanzibar Philosophy of Education, goals and objectives of Zanzibar Primary Education, reasons for reviewing Creative Arts and Sports Syllabus and importance of learning Creative Arts and Sports. Also, there is the general learning outcomes of Creative Arts and Sports for Standards I-III. Other aspects are: explanations on items from the syllabus matrix as well as the scope and sequence of the topics therein.

2.2 Teaching and Learning Tables/ Matrix

This section shows the learning procedures clarified in the three tables which carries the content of learning from Standard I-III. Each table starts with the list of general learning outcomes for the specific class. After the general learning outcomes, follows the table of matrix with six columns with topics, specific learning outcomes, learning techniques, learning resources, assessment, and number of periods for each subtopic. The following are explanations for each item from the teaching and learning tables/matrix.

2.2.1 Topics

The topics focus on the scope of teaching and learning of particular topic.

2.2.2 Specific Learning Outcomes

Each Subtopic shows specific learning outcomes. Those learning outcomes describe knowledge, skills, and attitude that each learner is supposed to learn from the subtopic. Specific learning outcomes are used in assessment that demonstrates indicators in the competence. Normally, in the learning process pupils begin to show some indicators while he/she is in the classroom. So each learner is supposed to attain the mentioned specific learning outcomes.

2.2.3 Learning Techniques

This column consists of interactive learning techniques to be used in learning the topics in this subject. The learning techniques are question and answers, brainstorming, games, songs, gallery walk, demonstration, role play and practical work. These are proposed methods that seemed to motivate students' participation in learning activities. The teacher is advised to use other interactive techniques which might be appropriate according to their teaching environment.

2.2.4 Learning Resources

Learning resources relate to learning techniques, specific learning outcomes, subtopic, and the requirements of each subtopic. However, the listed resources are the proposed samples, the teacher is advised to be creative in improvising resources from real environment or low cost. Also, teacher should cooperate with the learners to create and design learning resources by using low cost available in their environment.

2.2.5 Assessment

In this column, assessment techniques and tools are suggested to assess if the learners achieve the intended specific learning outcomes of the targeted topic. Assessment should be done daily, weekly, monthly, at the end of the term, and year. Teacher is insisted to assess each learner's progress using various techniques. Those techniques are such as self-assessment, observation, portfolio, checklist, question and answers and exercises. While using those techniques, it is better for a teacher to focus on the proposed techniques and tools of assessment addressed in the syllabus and consider needs of every pupil.

2.2.6 Periods

This column shows the estimated number of periods for teaching a given topic. They are calculated on the basis of the number of days in the academic year (210) divided by the number of teaching days per week and multiplied by the number of periods per week. The total number of periods is divided by the number of sub-topics in the syllabus to get the average number of periods per sub-topic. However, the teacher may slightly adjust the estimated number of periods for a given topic or sub-topic depending on the needs of his/her class.

The Creative Arts and Sports subject has been allocated five (5) periods per week for standard I-III. From Monday to Thursday, during the morning session, the duration of each period shall be 40 minutes. It shall be 35 minutes in the afternoon session. On Fridays the duration of each period shall be 30 minutes only. The school management is required to compensate the learning time lost due to excuses.

2.3 Scope and Sequence

The topics are organized according to the intellectual, spiritual, physical and sensitive development of the pupils, the ability to learn and the importance of the subject in the economic activities of their community as well as the interdependence of the topics involved. In addition, topics of cross-cutting issues have been considered, in particular, entrepreneurship and assertive life skills have been included.

The teacher is advised to teach these topics based on the learning environment and in a suitable way. The arrangement of topics in the Syllabus is as shown in the following table:
