PREFACE

The Environment Syllabus for Standard I-III of 2022 is derived from the great changes in education that were conducted by the Ministry of Education and Vocational Training (MoEVT), that has included the curriculum review of Pre-primary and Primary Education in 2019. The aim of reviewing this syllabus is to make it go along with the development of science and technology, competitive in labor market with global economic changes as it has been explained in several governmental documents including the Zanzibar Education Policy.

MoEVT through the Zanzibar Institute of Education (ZIE) has prepared the Environment Syllabus in order to suit the subject's needs. Therefore, this syllabus contains all Environment topics that relate to the aim and context of the subject concerned. The writing of this syllabus has considered several educational stakeholders in different levels especially in primary education. MoEVT through ZIE has ensured that this syllabus encompasses the stakeholders' opinions together with the review of several documents from other countries that are similar geographically as well as in terms of educational system and population.

MoEVT sincerely thanks all the stakeholders who participated in one way or another in the development of this Environment Syllabus (I-III) from the beginning to its completion. These including; ZIE Advisory Board members, ZIE Staff, Lectures, MoEVT Technical Team, Curriculum Developers, Teachers as well as Retired professionals from MoEVT.

I hope this syllabus will be used for all government and private schools in Zanzibar, as well as other curriculum implementers at Primary Educational Level.

Khamis A. Said,
Principal Secretary,
Ministry of Education and Vocational Training,
Zanzibar.

ACKNOWLEDGEMENTS

The Zanzibar Institute of Education (ZIE) extends its sincere gratitude to the Hon. Leila Muhamed Mussa; Minister of Education and Vocational Training, Hon. Ali Abdulghulam Hussein; Deputy Minister of Education and Vocational Training, Hon. Khamis Abdulla Said; Principal Secretary of the Ministry of Education and Vocational Training, Dr. Mwanakhamis Adam Ameir; Deputy Principal Secretary of the Ministry of Education and Vocational Training and Dr. Abdullah Ismail Kanduru; Chairperson of Zanzibar Institute of Education Advisory Board.

Special thanks should go to ZIE heads of divisions, all ZIE staff members as well as members of ZIE Advisory Board who participated in the development of this syllabus. Also, ZIE thanks the officers of different levels from MoEVT who offered their time and contributed their opinions in developing this Syllabus. Additionally, ZIE thanks all teachers, parents, and students for participating in this work.

Also, ZIE would like to take this opportunity to thank various institutes for permitting their workers to work together. Those institutions are including: The State University of Zanzibar, Abdulrahman Al-Sumait University, Department of Teachers Education, The Office of Chief Inspection of Education, Zanzibar Examination Council, Department of Pre-primary and Primary Education, Department of Secondary Education and Zanzibar Muslim College. Other institutions are Madrasa Early Childhood Programme-Zanzibar, Zanzibar Anti-Corruption and Economic Crimes Authority, Stone Town Authority, the Zanzibar Drugs Control and Enforcement Authority, Inclusive Education and Life Skills Unit, Mnazi Mmoja Referral Hospital, the Grand Mufti's Office of Zanzibar, Zanzibar Association for Private Schools and other institutes for working hand in hand to complete the given task.

Finally, ZIE would like to extend its sincere gratitude to the Revolutionary Government of Zanzibar and other Development Partners especially the Global Partnership for Education (GPE) for its technical and financial support to the completion of this task.

Abdalla M. Mussa.
Executive Director,
Zanzibar Institute of Education,
Zanzibar.

INTRODUCTION

This Environment syllabus of 2022 for Lower Primary has been prepared to meet the basic needs at the primary education level in Zanzibar. It is derived from the 2009 which was reviewed in 2019. These syllabi includes Introduction, Philosophy of Education in Zanzibar, the Goals and Objectives of the Primary Education in Zanzibar, the Reasons for Reviewing the Primary Education Curriculum, The Importance of Learning an Environment followed by the list of the general outcomes of environment subject, Structure of the Syllabus, general learning outcomes for each class and also the syllabus includes matrix.

1.1 Zanzibar Philosophy of Education

The Curriculum Framework for Pre-Primary and Primary Education is inline with Zanzibar's philosophy of education, values and principles of its education system.

The philosophy of education in Zanzibar is the same as that of the United Republic of Tanzania which aims at the provision of *Education for Self-Reliance*. This philosophy is featured by self independence, confidence, progressiveness, possession of life skills, valuing equality, entrepreneurship, inventiveness, curiosities, creativity, and the ability to assess, evaluate and analyse.

1.2 The Overall Goals of Zanzibar Education

The following are the overall goals of Zanzibar education:-

1. To promote and sustain the best cultural values, attitudes and customs of the people of Zanzibar and Tanzania for the purpose of enhancing unity and cultural identity.
2. To promote the acquisition of all forms of knowledge, skills and attitude that will fully enhance the people's individual and societal wellbeing.
3. To enable every citizen to understand and respect the principles of the Zanzibar and Tanzania Constitutions, Human Rights as well as civil rights, obligations and responsibilities.
4. To promote and enhance the proper use, management and conservation of the environment.
5. To promote appreciation and respect of civil service and self-employed work, as well as observing accountability, discipline and quality performance at work.
6. To inculcate the attitude towards adhering to the principles and practices of tolerance, peace, love, justice, human rights and fundamental freedoms,

national unity and International cooperation as enshrined in the International basic Charters.

1.3 Objectives of Primary Education

The objectives of Primary Education in Zanzibar are as follows:

1. To enable all school children of school going- age develop and sustain strong foundations of skills in reading, writing, counting, creating and communicating in Kiswahili, English and other foreign languages.
2. To enable learners, understand the application of science and technology and recognize its contribution to their national development and world in general.
3. To set, develop and sustain in strong foundations of thinking skills and curiously to the leaners in order to understand their environment and social relationships.
4. To enable the learners, understand how past events influence the present as well as the future.
5. To recognise learner's talents from their early age in order to sustain and develop them.
6. To set strong foundations in observing, thinking and co-operating skills in solving problems which hinder their personal development and the development of their society.
7. To prepare learners for joining secondary education.
8. To enable the learners, develop their mental abilities and interest in searching for knowledge.
9. To familiarize learners with productive activities and promote their readiness to fulfil their social responsibilities.
10. To enable learners, recognize and uphold their national unity as well as the cooperation between their nation and people from other nations.
11. To enable the learners, develop acceptable spiritual, moral, cultural and ideological values in order to promote patriotism and understanding of their country's historical, political and social situations.
12. To develop and sustain learners' self – discipline, respect gender equality and protect of personal health and other peoples' health.
13. To enable the learners, develop habits of smartness, cleanliness and proper use of their leisure time.
14. To promote learners' love for their environment and interest in environmental

conservation.

1.4 Reasons for the Reviewing of Primary Education Curriculum

In 2019, the Revolutionary Government of Zanzibar reviewed the curriculum of Pre-Primary and Primary education. The aim was to make it relevant to the development of Science and Technology, employment competition and global economic changes, as stated in various Government documents, including Zanzibar Policy of Education. The policy focuses on enhancing the quality and structure of education so as to have good link starting from Pre Primary, Primary, to Secondary, in order to suit peoples' expectations within the society. Among the proposed changes in that policy is to have seven (7) years of primary education instead of six (6) years that was being practiced before.

1.5 Importance of Learning Environment Subject

According to the 2019 educational review, it was realized that the Environment subject was not independent one but was among the topics in Social Science and Science subjects from standard I-VI. Therefore, due to the societal needs, it was observed that the subject is important to be taught from standard I-III independently.

It is because, this subject helps the learners to build knowledge, skills and positive attitudes to enable him or her to preserve and value his/her surrounding environment. This subject also, helps the learners to promote his/her health and prevent him/her from communicable and non communicable diseases. Further more, this subject helps the learner to sustain Zanzibar culture, being good citizen and create different activities that enable him/her to be independent.

1.6 General Learning Outcomes of Environment Subject

After studying Environment at primary school level the pupils shall demonstrate ability to:

1. Understand basic health practices and observe self-respect, self protect, personal hygiene and environmental cleanliness, e.g. Identify common diseases and their causes, identify parts of the body and their functions.
2. Identify their environment features and understand things that influences these e.g. identify various economic areas of Zanzibar and their features, identify similarities and differences between animals, appreciate the importance of using resources in a right way and others.
3. Respect human rights as well as having cultural and religious tolerance
4. Collect information, knowledge and skills from various ICT sources and apply them appropriately for personal and societal development
5. Understand their rights and responsibilities in relation to there family, society as well as country.
6. Understand and appreciate the history of Zanzibar and their neighbouring countries.

2.0 STRUCTURE OF THE SYLLABUS

This syllabus consists of two main sections: the preliminary pages and the teaching and learning tables/matrix.

2.1 Preliminary Pages

This section consists of the Introduction of Syllabus, Zanzibar Philosophy of Education, goals and objectives of Zanzibar Primary Education, reasons for reviewing Environment Syllabus and importance of learning Environment. Also, there is the general learning outcomes of Environment for Standards I-III. Other aspects are: explanations on items from the syllabus matrix as well as the scope and sequence of the topics therein.

2.2 Teaching and Learning Tables/ Matrix

This section shows the learning procedures clarified in the three tables which carries the content of learning from Standard I-III. Each table starts with the list of general learning outcomes for the specific class. After the general learning outcomes, follows the table of matrix with six columns with topics, specific learning outcomes, learning techniques, learning resources, assessment, and number of periods for each subtopic. The following are explanations for each item from the teaching and learning tables/matrix.

2.2.1 Topics

The topics focus on the scope of teaching and learning of specific topic.

2.2.2 Specific Learning Outcomes

Each Subtopic shows specific learning outcomes. Those learning outcomes describe knowledge, skills, and attitude that each learner is supposed to gain from the particular subtopic. Specific learning outcomes are used in assessment that demonstrates indicators of the competence. Normally, during learning pupil begins to show some indicators while learning. So each learner is supposed to attain the mentioned specific learning outcomes.

2.2.3 Learning Techniques

This column consists of interactive learning techniques to be used in learning the topics in this subject. The learning techniques are such as question and answers, brainstorming, games, songs, gallery walk, demonstration, role play and practical work. These are proposed methods that seemed to motivate students' participation in learning. The teacher is advised to use other interactive techniques which might be appropriate according to their teaching environment.

2.2.4 Learning Resources

Learning resources relate to learning techniques, specific learning outcomes, subtopic and the requirements of each subtopic. However the listed resources are the proposed samples, the teacher is advised to be creative in improvising resources from real

environment or low cost materials. Also, teacher should cooperate with the learners to create and design learning resources by using local raw materials available in their environment.

2.2.5 Assessment

In this column, assessment techniques and tools are suggested to assess if the learners achieve the intended specific learning outcomes of the targeted topic. Assessment should be done daily, weekly, monthly, at the end of the term, and year. Teacher is insisted to assess each learner's progress using various techniques. Those techniques are such as self-assessment, observation, portfolio, checklist, question and answers and exercises. While using those techniques, it is better for a teacher to focus on the proposed techniques and tools of assessment addressed in the syllabus and consider needs of every pupil.

2.2.6 Periods

This column shows the number of periods for the topics to be taught. That total has been reached after working out the total number of periods for this subject in each academic year (210) days for each class. Such total is divided by the number of sub-topics contained in the Syllabus so as to get the average number of periods for each sub-topic. This estimation can be altered by the teacher according to the teaching/learning circumstances of the topic concerned. The Environment subject has been allocated 6 periods per week for standard I and II and 7 periods for week for standard III. From Monday to Thursday the duration of one period is forty (40) minutes in the morning session and thirty five (35) minutes in the afternoon session. But on Friday each period will take only thirty (30) minutes. The school management is required to assist the compensation of the learning time lost.

2.3 Scope and Sequence

The topics have been sequenced in accordance with the learner's cognitive, spiritual, physical and sensitive development. Their learning capacity to learn and the importance of the subject in economic, social activities as well as the interdependence of the particular topics. The topics have also been specifically considered the cross-cutting issues entrepreneurship and life skills.

The teacher is advised to teach these topics by taking into consideration the learning environment and the appropriate logic. The following table shows the suggested sequence of topics in the Syllabus:-

	TOPICS	SEQUENCES OF THE TOPICS PER CLASS
